De Gaulle Party Whips Communists

By JAMES F. MCILINCY
 PARIS, Oct. 20.—(RUP)—Gen. Charles de Gaulle, a man without a party six months ago, emerged today as a new strong man of French politics, with his anti-leftist rally of the French people far ahead of the Communists in return from yesterday's nationwide municipal elections.

THE RALLY, which de Gaulle organized just six months ago to fight the Communists, had 415 per cent more than 4,000,000 votes counted. The Communists had 29.7 per cent.

PARIS, Oct. 20.—(RUP)—Communist-led Paris labor union agreed tonight, after Gen. Charles de Gaulle's sweeping victory against an outright anti-Communist ticket in French municipal elections, to call off their cowering Parisian transport strikers.

had 29.7 per cent. Premier Paul Ramadier's Socialists 26.6 per cent and the Popular Republicans movement, once the strongest party in France, 12 per cent.

The Communists, who won 25 per cent of the total vote in last November's National Assembly

Gainer's Plant Re-Opens Tuesday

Employees of Gainer's Ltd. packing plant on the South Side which re-opened today after a strike of 100 workers at this afternoon.

Official said that it was expected workers of at least one other city plant would return within the next day or two.

By The Canadian Press

Canadian meat packing plants prepared today for an early resumption of operations in the belief that halting under way across the nation would lead to an end of the strike started a little more than two weeks ago by 14,000 members of the United Packinghouse Workers of America (U.P.W.A.).

ALTHOUGH U.P.W.A. officials in Toronto and Montreal said no return to work order would be given until strikers' rally agreements reached by the union with various companies, there were at least three hopeful signs that the strike was in its last stages.

These were:

1. An announcement that operations would be resumed today in the plant of Brandon Packing Ltd. at Brandon, Man., where 400 employees staged a sympathy strike Oct. 9.

2. The disclosure that 130 workers in South Canadian plants at Vancouver and New Westminster B.C. had voted to accept an agreement negotiated with the company by the union.

3. The statement by an official of the union in Montreal that "we expect the men in Montreal to return to work."

Voters May Add Names to List

Residents whose names are not included in the voters' list and who are eligible to vote in the Nov. 5 municipal election will have their last chance to have their names added to the list today and Tuesday evening.

The court of revision will close at 10 p.m. after which time the list will be officially declared closed and no further additions can be made. The revising officer, Watson T. Hunter, will be at the court from 8 to 10 p.m. Monday and Tuesday.

During the revision period to date only 815 names have been added to the list.

Transport Strike Hits 3 B.C. Cities

VANCOUVER, Oct. 20.—(CP)—All public transit rolling stock in British Columbia's three major cities ground to a standstill at 4 a.m. (PST) today as 2,800 street railwaymen walked off the job.

Picket lines were immediately thrown around more than 25 B.C. Electric Railway Company operations centres in Vancouver, New Westminster and Victoria.

The paralyzing strike—third in Vancouver's history—left an estimated 237,000 workers in the three centres without their normal means of transport. It also halted operations of trains to the suburban Lulu Island, Burnaby and Marpole districts, leaving more than 1,700 workers in those areas stranded from reaching work in Vancouver and New Westminster.

Thousands of residents in the three cities grimly donned their "walking shoes" this morning and glumly started tramping to work. Thumbs worked overtime as hitchhikers beseeched rides from motorists whizzing past. Almost all automobiles were "packed" before arriving at the busier section of the cities.

People action of the striking street railway union officials in declaring "unfair" any commuter who used other means of transportation to reach work, many large

companies and government offices operated inter-office car pools.

At 120 a. were army in operation its service for transporting personnel of five Vancouver hospitals living outside a two-mile radius from their institutions. Police and fire department employees worked under a similar city scheme.

OTHER COMPANIES defied a police warning against transporting employees to work in company-owned cars.

Ruthless Killer Hunted

Vancouver Youngster Found Brutally Slain

VANCOUVER, Oct. 20.—(CP)—Police throughout British Columbia today joined in the search for the ruthless slayer of a seven-year-old Vancouver youngster, whose twisted, bludgeoned body was found in a clump of bushes in the east-end section of the city.

THE BRUTALLY beaten body of dark-haired Roddy Moore was discovered yesterday lying in a shallow depression among a clump of bushes on the Begbie school grounds—less than four blocks from the home of his grief-stricken mother, Mrs. Turner.

The handsome, blue-eyed youngster, who would have celebrated his eighth birthday next month, had been missing since leaving his home last Friday morning to attend school.

Two comforters and a blanket, found in debris built near the spot where the body was lying, may furnish a clue to the identity of the slayer, police said. The covers apparently had been used as a bed and police were making extensive inquiries to try and learn the description of anyone seen hanging around the area recently.

POLICE SAID Roddy apparently had been attacked sometime Friday—possibly in broad daylight.

The grisly discovery was made shortly after noon yesterday by A. Lockwood, one of a party of more than 50 neighbors who had assisted police in searching for Roddy since late Friday.

The youngster's head had been savagely bludgeoned—probably police said by a heavy log. The left side of his head was crushed and had been "literally pounded" into the ground, which earth. The imprint of a steel heelplate

Three Generations of One Family Injured in Crash on Edmonton-Calgary Highway

Three generations of one family suffered serious injuries in the above accident about 8 p.m. Saturday on the Edmonton-Calgary highway near the intersection of the 100th and 110th streets. The car was a 1946 Buick Wildcat. The driver, 12-year-old David, Mary Ann 2 and Mr. Wood's mother, Mrs. Daisy Wood, Mr. Wood suffered chest injuries. His mother is in critical condition with chest and head injuries. The girl has a broken leg. The mother suffered leg injuries, while the boy suffered head injuries. A passing hunting party took the fire to hospital. RCMP said the driver of the truck was an oil worker, Fred Robertson, Okla.

10 Persons Aboard 2 Missing Aircraft

By Ervin Fricker
 PENTICTON, B.C., Oct. 20.—(CP)—Impenetrable ceiling which closed down over this Okanagan valley fruit-growing center today hampered an intensive air search for RCAP photographic planes missing since Saturday with a crew of seven and two civilian passengers aboard.

A canoe amphibian, carrying additional search crews, landed here earlier, but two Dakota planes, one carrying Search Commander H. L. Carl Brown of Edmonton, were forced back to Vancouver by adverse weather.

A specially-equipped para-rescue squad, under Jump Master Sgt. E. Borkowski, was forced down in nearby Cranbrook when their Dakota developed engine trouble. Plans were to have them proceed to the operations base here when repairs were effected.

MEANWHILE several planes were searching today in the area between Edmonton and McMurray, Alta. for some sign of a light amphibious plane missing since Saturday with Pilot A. McKee aboard. Planes of the RCAP and the United States Army and naval air forces along with civilian pilots were prepared to resume the search for the photographic plane as soon as weather permits.

ABOARD THE SERVICE craft

Mr. and Mrs. Harry Knight of Penticton, B.C. Pilot J. J. MacLeod, Lt. B. E. Downman, Cpl. J. S. Salmon, and P.O. B. Cook, all of Edmonton.

From Canadian Lines 125,000 Rail Workers To Strike on Nov. 3

MONTREAL, Oct. 20.—(CP)—A strike affecting some 125,000 employees of Canadian railways has been called for effective Nov. 3 at 8 a.m. F. H. Hall, chairman of the negotiating committee of 17 associated railway unions, announced today.

MR. HALL SAID the railroad workers were advised today of the calling of the walkout.

Railways concerned are the Canadian National Railway, the Canadian Pacific Railway, the Canadian Government Railway, the Pacific Great Eastern Railway, the Canadian Central Railway, the Ontario Northland Railway, the Quebec North Shore and Labrador Railway and the Exeter Terminal Railway.

The strike has been called to enforce the actions required for 14 days vacation with pay each year on a sliding scale—six days for employees with one year's service and 12 days after five years' service.

MR. HALL said the board's decision was accepted by the union, but declined by the railways following which the unions had resorted to their original demand of 14 days.

The matter was referred to an arbitrated arbitrator by the board of the United States Coast Guard earlier this month. The ship which performed the epic rescue mission, "fled" the plane's crew before the plane was able to land.

Albert Ritchie, Auditor, N.B., member of the United Nations secretariat, a passenger on the plane when it crashed, said the plane was "fled" before the plane was able to land.

Get Signals

(Continued from Page 1)

possibility the Seabee plane was not in serious difficulty. As far as is known in Edmonton the only person at risk was the pilot, A. McArthur, McArthur, a newcomer to Edmonton area flying circuit.

The plane is owned by the Ed-monton Mining Corporation and K. Saunders of Edmonton, district inspector of civil aviation, com-mended the plane probably was returning to Edmonton after sum-mer operations in the Yellowknife, N.W.T., area, 675 air miles north of Edmonton.

THE SEEBEE was calling Ed-monton and Grande Prairie, but neither of these points heard the signal. An air radio would not operate at its maximum capacity from the ground.

Meanwhile one Mitchell plane and "several" Harvards were searching today in the area be-tween Edmonton and McMurray for some sign of the plane, due to arrive in Edmonton Saturday after-noon.

Mr. Saunders said the plane might have landed because it was out of gas, because of an engine failure or because it was lost.

Eighteen inches of snow on the Jasper-Hamilton highway has closed that road for the winter, accord-ing to a joint announcement Mon-day by J. A. Wood, park superin-tendent at Jasper and J. A. Hurst-son, Banff park superintendent. The snow fell on the Sunwapta and Bow passes, it was learned.

M. J. Coldwell Says Here:

Use of Atomic Energy For Industry Watched

Britain's determination to use atomic energy for peaceful industrial purposes as soon as possible will focus world attention on peaceful potentials of the atom instead of on war, M. J. Coldwell, M.P., national leader of the Co-operative Commonwealth Federation, predicted in an interview here Monday.

YOUNG ALBERTA address-ing CCF nominating conventions, Mr. Coldwell said he found the CCF party head said he found European delegates concerned over "war talk" in the U.S. and the attitude of Soviet Rus-sia.

He felt there is ground for real hope in the way Britain is rally-ing support from both conservative financial leaders in the U.S. and the democratic peoples of other nations.

"BRITAIN'S determination to utilize atomic energy for peaceful purposes will dispel much of the fear that has arisen throughout the world concerning the atom bomb, which has been more emotional in the United States," he declared.

Mr. Coldwell reiterated the official stand of the CCF party on Communism.

"The CCF party, as its name implies, is a democratic Socialist party and as such can make no compromise with Communism which theoretically and practically relies on dictatorship and oppression of legitimate opposition. Everything he had seen in the United States confirmed his belief in the necessity of retaining price controls in Canada, Mr. Coldwell said. The policy of controls and subsidies is working well in Brit-ain where despite shortages the people are paying much lower prices for primary foods than in this country or the U.S. But, for instance, is only 30 cents a pound in Great Britain, he pointed out.

HE FELT THERE might be a general federal election next fall, and certainly when Prime Minister King retires.

The CCF is steadily gaining ground. There had been voting gains of 30 per cent in Portage La Prairie, 50 per cent in Rivie Park, Toronto, and 80 per cent in Hal-fax. He also predicted voting gains in the York-Sunbury elec-tion of Monday.

"I am hopeful of the CCF form-ing the largest group in the Dom-inion House after the next election. The Progressive Conservative party is definitely losing ground, he stated.

Petrillo to Ban All Record-Making

CHICAGO, Oct. 20.—(AP)—James C. Petrillo announced Sun-day that union musicians would be barred from making any re-cordings or radio transmissions after Dec. 31, but recording industry sources said they anticipated the move and had begun unis-son to last from one to two years.

The fiery boss of the Federation of Musicians (AFM), said his 225,000 members were "destroying themselves" by making records and transcriptions and added, "there will never be any more phono-graph records or transcriptions made by members of the musicians union."

The ban, which Petrillo said was voted unanimously by the union's executive board in a closed session, brought a quick reaction from trade sources in the industry.

Petrillo said the record and trans-cription ban would be effective Dec. 31, when present recording contracts expire.

Russia Fights Balkans Watch

NEW YORK, Oct. 20.—(CP)—Russia formally demands today that the United Nations Assembly reverse a decision of the 51-power political committee and order Brit-ain and United States military personnel out of Greece.

The new demand came as Rus-sian Delegate Andrei Y. Vishni-sky prepared to begin a last-ditch fight against formal creation of an American-sponsored U. N. border watch in the Balkans.

The Russian proposal to revive the already defeated Soviet resolu-tion was submitted in a letter to Dr. Oswaldo Ariza of Brazil, as-sembly president, asking that the question be placed on today's ca-len-dar for the plenary sessions at Flushing Meadow Park.

Reds Whipped

(Continued from Page 1)

elections, more than any other party, were second best this time to their biggest enemy. However, they had more than held their own, and the expense of the Socialists and especially the CCF.

YET THE COMMUNISTS were strong. They decided to continue their campaign of strikes on the P.A. subway and buses and again threatened to call a general strike in Paris unless the Hamilton gov-ernment submitted to their de-mands for more money.

"We have the means to win. If the government chooses to use these means, we will win," said Henaff, general secretary of the Communist dominated Paris Labor Federation, thundered to a mass meeting of 25,000 strikers this morning.

THERE IS A TOTAL of 30,000 strikes. The 25,000 at the mass meeting voted to go ahead with the strike, although the Hamilton government earlier today set to deal with them until they were back at work, had offered a provi-sional raise. The meeting was cal-led to Paris on their order.

De Gaulle's most striking victory was in Paris, where the rally was of the 80 municipal posts con-trolled by the Gaullist mayor, Pier, was elected to the council and was expected to be elected by the council as mayor of Paris. Rally officials made by members of the musicians union to a big women's vote.

Transit Strike

(Continued from Page 1)

owned trucks, while others char-tered taxicabs. At least three tax-companies were known to be "hooked" solid tight around the city. A number of business-people stayed in hotels overnight, but were within walking distance of their offices.

Earlier police warned that truck drivers operating on "C" char-ter's licenses must not carry pas-sengers in the body of the truck.

Only BCR service to escape the lull today was the New West-min-ster-Chilliwack line. Three trains on the service were left on the Canadian National Railway main-line outside West Westminster to avoid picketing.

The trains, along with those run-ning to Louis Island and Marpole are operated by members of the Brotherhood of Railway Locomo-tive Engineers, holding a separate contract with the city.

TEUP of the latter two lines resulted when operators refused to cross picket lines established at the Kitilano bridge repair depot, where the trains had been brought for servicing.

Last passengers to ride over the struck lines in Vancouver early today were private farmers—John Hetherington and Alvin Grub-bins, both of Gull Lake, Sask. They scrambled on the last train oper-ating from the Marpole district shortly before the 4 a.m. deadline went into effect.

Liquor Burned

GOOLE, Yorkshire, England, Oct. 20.—(Reuters)—Quantities of whisky, gin and rum fed a spec-tacular blaze which broke out in a large four-story warehouse here Saturday, causing damage estimated at £1,000,000 (\$4,000,000) from seven towns fought the fire.

Missing Planes

(Continued from Page 1)

of Ottawa: P.O. G. B. Lebel of Riviere Du Loup, Que., P.O. A. G. Robertson, Winnipeg, and LAC W. H. Mulvey of Calgary.

The Mitchell has been reported since 11:44 a.m. MST, Saturday, when, en route from Calgary to Penitence, it radiated a weather en-quiry to the radio range station at Crescent Valley, B.C. It did not give its own position.

The civilian plane with the un-identified pilot had been missing since Friday.

The Mitchell left Port Mc-Murray, Alta., in the upper Athabasca river valley for Edmonton, and has been unreported since.

THROUGHOUT the week-end the RCMP and civilian craft crew crossed the area over which the two planes were believed to have flown.

A Mitchell, two Canos and two Harvards scoured the pathway of the Athabasca for traces of the See-bee, while four Dakotas and three Canos cruised through the 20,000-square-mile area of rugged moun-tainous area in which the mis-sing Mitchell last was reported fly-ing.

A group of 10 United States planes were ready to complement the search below the international border, but the missing bomber have lost itself over Washington state.

The bomber was one of a score used by the RCAF for aerial pro-specting. Based at a major base at miles east of Vancouver, it was to return to Regina, Saskatchewan, Ottawa, today.

The knights are proprietors of the Pacific hotel at Penitence, host for the missing aircraft's crew. They apparently flew to Calgary to do duty, and through knowl-edge to be friendly terms with the mis-sing aircraft, they were to be ac-counted for by RCAF authorities.

THE MITCHELL had six hours fuel when it left Calgary Saturday, enough to last until 3 p.m., more than three hours after its last signal.

Because its route was not known, today's searches will explore two possibilities—the direct route from Calgary to Penitence, and the usual air thoroughfare by way of Crescent Valley and Carmel to Penitence.

Also ready for action should the plane's whereabouts be discovered are the 100-man rescue teams, down to Penitence from Edmonton Sunday, under Sgt. E. Borkyuk, the commander of the rescue party.

Will be used to "guide to the pas-senger's assistance. They are based on both the Penitence and the airport at Cranbrook, B.C., 230 miles from Penitence.

SCENES during the week-end as the search, organized under the RCAF's and civilian co-ordinating center at Vancouver, got under way recalled those during the great search for the Trans-Canada Air-lines liner, missing since an April crash from Lethbridge, Alta., to Vancouver, with 16 persons aboard.

Co-ordinating operations east of the Rockies is the force's North-west Air Command, under which the City of Edmonton Squadron is operating in its quest for the missing Seabee.

Elk Point Hunter Fatally Wounded

(Continued from Page 1)

The first report of a hunting fatality in Alberta this season was received by RCMP here Monday.

The deceased is 29-year-old Harry Zacharuk, Elk Point.

Police said Zacharuk was hunt-ing about 5 p.m. Saturday in com-pany with a friend, Metro Lyuka, Elk Point. They shot at a flight of ducks and one fell in the ground. The couple reloaded their guns and Zacharuk was to kill the duck by hitting it with the butt of his gun. When he swung the gun it discharged, wounding him in the stomach. He died while on the way to the Myrtown hospital.

"Gentlemen Adventurers"

WITHIN a few years of its founding in 1867 the Manufacturers Life expanded into foreign fields. The representatives who pioneered this development were truly "Gentlemen Adventurers"—their search for new avenues of business was an advance into the unknown.

From the nation's viewpoint this expansion was an important step in the development of export trade which at that time was confined to natural products. The sale of Life Insurance abroad is an export of services paid for by the premium payments of foreign policyholders.

In many areas of the world Canadian life insurance companies laid the foundation for our foreign trade and established Canada's reputation for stability and fair dealing. Even today there are places where Canada is known principally for its Life Insurance companies.

The Manufacturers Life is proud of the part it has played in this development—a proud, too, in world-wide reputation for financial strength and the best of Life Insurance service.

Year After Year "Golden-Good" eating

OUT of millions of Grape-Nuts packages have come millions of better, happier breakfasts in the past fifty years. There's "golden good" eating in every Grape-Nuts package. The fine nourishment of two grains—golden wheat and malted barley. And a wonderful, zesty flavor that no other breakfast food offers.

Post's Grape-Nuts for "Golden-Good" eating

Claim Charter "Violated"

Russia, Followers Boycott U.N. Group

By Clyde Blackburn
LAKE SUCCESS, Oct. 20. —(CP)— Russian-led Slav members have added to their formal boycott list of United Nations activities the move to set up an interim committee of the whole general assembly and the Soviet group attitude threatened Sunday to minimize the authority of U.N. decisions.

THIS LATEST stage in Russia's slow removal of heretofore friends from U.N. responsibilities came Saturday when the 27-member political committee named a 15-member sub-committee to prepare detailed recommendations to the general assembly.

Vote on the motion to set up the sub-committee was 38 to 9 with the Slav countries and many others not voting.

Chairman Joseph Beck then named the members to serve on the sub-committee, including Russia and Czechoslovakia.

Russia's Andrei Gromyko immediately announced his government would not serve on the committee or have anything to do with it because the interim committee plan was "a violation" of the U.N. charter.

SPOKESMEN for Czechoslovakia, the Ukraine, White Russia, Poland and Yugoslavia, followed with similar statements, and the impression was that all would boycott the committee unless set up by the general assembly.

In the Palestine committee Saturday there was an impassioned plea by the "father of Zionism," 72-year-old Dr. Chaim Weizmann, for carrying out of the plan to partition Palestine.

Weizmann, longtime advocate of a Jewish home in Palestine who was ousted from Zionist leadership.

He said the committee should not be set up by the general assembly but by the U.N. itself.

He said the committee should not be set up by the general assembly but by the U.N. itself.

Thompson

(Continued from Page 1)

conditions in Europe and Asia, Miss Thompson is deeply concerned over the growing tensions arising from the ideological "war" now being waged against Western democracies by Soviet Russia.

"WHAT I am trying to get across in my lecture tour is that the Anglosaxons believe under pressure from Russia are disregarding the facts of biology and geography," Miss Thompson told her interviewer.

"The Russian plan is almost an exact copy of the Hitler plan of conquest. She aims to isolate Great Britain and America from the rest of Europe and then conquer of Europe and Asia."

"I never had any fear that Nazism would win. I am not so sure about Communism. The great advantage of Russia is that she has no Communists in Russia. Like Germany, Russia is playing Russian nationalism up at home but making Germany in having some success in exporting it."

She then explained what she meant by statement: "There are no Communists in Russia."

"In the United States there is an act called the Logan Act that prohibits any citizen of the U.S. from dealing directly with a foreign state. Russia, however, through the established diplomatic channels, conducts relations with Canada, Americans, Italians and others. These negotiations are carried on by the State Department. The international Committee is something, that, no other power possesses."

IF THIS principle is accepted then there is no definition for treason, she contended.

"If the principle of a lesser loyalty is another story, such as was admitted at the Canadian espionage trials is accepted, then why was Lord Hawkeham executed?" Miss Thompson asked.

"We of the Western democracies must try to consolidate the Western world. The Marshall plan means a lot more backing and imagination if it is to accomplish this purpose but I am more hopeful now of intelligent American action since the return from Europe of a Congressional committee which was greatly impressed by the need for strong action," she said.

"Once we have organized Europe we should get out of Europe. Our use to help by the countries in need of help by all means but not from military occupation."

LIKE HITLER, Stalin taps out the weak spots in Europe and pushes it in at those places. If not by resistance he retreats. Russia certainly doesn't want military action at this time. The recent conciliatory words of Stalin to the British MP's visiting Russia form just another familiar Russian tactic.

"It is surprising on up for some time," she said.

Russia is counting on a major depression in the United States but is actually doing much to prevent such a happening through carrying America to continue on an active military preparation program.

"This is stupid of the Russians because I cannot see a depression in the States as long as the country continues to remain armed. We have price inflation in the U.S. and Canada and I think it will continue for a long time but we see a depression in the near future."

And-colored diamonds can be changed to green by bombardment with heavy hydrogen atoms.

IN THE OPINION OF Miss Thompson...

Miss Thompson is deeply concerned over the growing tensions arising from the ideological "war" now being waged against Western democracies by Soviet Russia.

"WHAT I am trying to get across in my lecture tour is that the Anglosaxons believe under pressure from Russia are disregarding the facts of biology and geography," Miss Thompson told her interviewer.

"The Russian plan is almost an exact copy of the Hitler plan of conquest. She aims to isolate Great Britain and America from the rest of Europe and then conquer of Europe and Asia."

"I never had any fear that Nazism would win. I am not so sure about Communism. The great advantage of Russia is that she has no Communists in Russia. Like Germany, Russia is playing Russian nationalism up at home but making Germany in having some success in exporting it."

She then explained what she meant by statement: "There are no Communists in Russia."

"In the United States there is an act called the Logan Act that prohibits any citizen of the U.S. from dealing directly with a foreign state. Russia, however, through the established diplomatic channels, conducts relations with Canada, Americans, Italians and others. These negotiations are carried on by the State Department. The international Committee is something, that, no other power possesses."

IF THIS principle is accepted then there is no definition for treason, she contended.

"If the principle of a lesser loyalty is another story, such as was admitted at the Canadian espionage trials is accepted, then why was Lord Hawkeham executed?" Miss Thompson asked.

Packers' Strike

(Continued from Page 1)

plants will go back to work some time next week.

WILLIAM SYMINGTON, international representative of the union, said date for the return to work of the strikers would depend on results of the countrywide vote of 200,000 employees.

A union source in Toronto said the complete vote would be known after Tuesday night or Wednesday morning. Workers in the Swift plant at Moose Jaw, which will be the last to make ballots. Their vote is to be held Tuesday.

Officials of both the union local and the company signed an agreement on the basis of the second round of the union with Swift Canadian. The agreement between Swift and the union, details of which were disclosed in Toronto Saturday, provides for a general 10 cents an hour increase with additional increases in some plants ranging from 1 1/2 to three cents an hour.

ONE CONFUSING factor entered in a difference in pay between the two plants. The union and the company agreed that the union and the company would have the "big three" — hours and company and Canada Packers — on the other. Whereas the agreement with Swift had a 10 cents an hour raise in its basic rate.

discussions revolved around a seven-cent hike with the other two companies. However, the amount is subject to arbitration.

At Montreal, municipal and provincial police early today arrested 43 members of the United Packing House Workers of America (C.I.O.) as they sought to establish picketing operations outside the plant of Will Ltd., and Canada Packers at the outset of the sixth week of the strike.

THE ARRESTS, all made between 6:30 a.m. and 1 p.m., brought to 220 the number of union members taken into custody on charges of violating an injunction which forbids picketing in this strike in Montreal.

Among those arrested was Sam Hughes, eastern director of the union who only last night said there would be no return to work in Montreal until agreements between the companies and the union have been ratified by the strikers.

Edmonton packing plants were awaiting results of final negotiations between company and union officials. About 1,500 workers are involved here and none had resumed work on Monday.

Normal eyes used under good lighting conditions need not develop eye strain and if they do, the doctor should be asked to determine whether glasses are needed or what corrective measures should be taken, assure health authorities.

Youngster Stalin

(Continued from Page 1)

was plainly visible on the side of the head.

Roddy, step-son of Logging Operator J. H. Turner, was last seen as he left his home for school Friday morning. A schoolmate told police that he watched him open the front gate of his yard and turn east toward the school.

The youngster's father is believed living somewhere in Saskatchewan. Mrs. Turner, who initiated the search for her son when he failed to return home for lunch Friday, is expecting a second child next month.

AT THE TIME of his disappearance she described him as "very friendly" and expressed fear that he might "wander off with any stranger" he happened to run into.

Coal Mining Town To Get 40 New Homes

CALGARY, Oct. 20. (CP)— There is a new oil town to be built in Alberta. Now it is a coal mining town to be built at the site of the Arcadia Coal Mines Ltd., near Drumheller.

Rebuilt might be a better word because the coal town already has a name, Willow Creek, and has some 30 dwellings and a school. But the living accommodation is entirely inadequate to meet the demands of company employees and now some 40 attractive new houses are to be built to attract miners and their families into the town.

Mechanical Brain Aids Science

Dr. H. V. Wilkes, director of the Cambridge university mathematical laboratory, is shown in London examining the "mechanical brain" tubes of the "TAC," an electronic device strong mathematical calculations.

"mechanical brain," which he and his assistants have constructed at Cambridge. Dr. Wilkes said that the "brain" will carry out mathematical research and may make substantial discoveries in engineering, astronomy and atomic physics. It may even solve economic and philosophical problems he has considered for the human mind, according to the British scientist.

Grain Prices

EDMONTON GRAIN
Street prices for grain at Edmonton.

As provided by the National Grain Company:

Oct. 30
Wheat at grade 54c.
Barley, all grades 70c.
Wheat at grade 54c. 1/2 bushels for No. 1, 10 bushels.

WINNIPEG GRAIN

WINNIPEG, C.P.—Rye future prices ranged from 10-10 1/2c. Monday, with October rye settling at all-time high of 4 1/2c. Lack of offerings and light demand for rye kept prices at a premium.

Trading was dull. Clean wheat wheat reached a new all-time high of 2 1/2c.

At the close October was 10 1/2c. higher at 4 1/2c. bid. May 10 1/2c. higher at 4 1/2c. bid. May 10 1/2c. higher at 4 1/2c. bid.

Cash prices: Rye—1c. and 2 c.w. 4 1/2c. bid. at ceiling of 40 cents. Barley at ceiling of 8c.

CHICAGO GRAIN

CHICAGO, (AP)—A high since 1917 was established for wheat futures on the board of trade Monday, with the government floor-buying price, reports that eastern bakers were making inquiries for flour and continued dry weather in the north.

Cash prices: Rye—1c. and 2 c.w. 4 1/2c. bid. at ceiling of 40 cents. Barley at ceiling of 8c.

Wheat Deliveries Rise Sharply

OTTAWA, C.P.—Swelled by heavy deliveries from farms in the prairie, stocks of Canadian wheat rose in the last full week in North America at midnight: Oct. 9 rose to 129,000,720 bushels, compared with 121,862,787 bushels Oct. 2 and 118,760,267 bushels on the corresponding date last year, the dominion bureau of statistics reported.

Deliveries of wheat from farms in the prairie during the week ended Oct. 9 increased to 21,214,124 bushels from the preceding week's total of 13,690,827 bushels. During the week ended Oct. 9, the dominion bureau of statistics reported.

Livestock

EDMONTON LIVESTOCK

Stocks receipts: cattle 587, calves 84, hogs 489, sheep 483.

Monday cattle market opened fairly active and sales up to noon were at unchanged rates. Receipts more liberal, but with a demand showing some improvement, a good clearance expected.

Choice steers quoted 13.50 to 14.00 for shipment. Good to choice headweights 12.50 to 13.00.

Calves: "A" grade 21.75 for grade A's for shipment.

Lamb: ungraded good to choice headweights 12.50 to 13.00.

WINNIPEG LIVESTOCK

WINNIPEG, C.P.—Trade on the Winnipeg livestock market Monday opened steady with early sales recorded principally to local buyers and other buyers. Packers were operated sparingly, pending full settlement of the nation-wide packing-house strike.

Cattle 2,000 steers up to 1,000 lbs. choice 14.00-14.50, good 13.50-14.00; steers over 1,000 lbs. choice 14.00-14.50, good 13.50-14.00; calves, choice 14.00-14.50, good 13.50-14.00; cows, good 12.50-13.00; sheep, good 12.50-13.00.

Hog: good 10.00-10.50; pig 9.50-10.00; lamb 17.00-17.50; quotations nil.

TORONTO LIVESTOCK

TORONTO, C.P.—Early cattle sales were too few to establish prices on the livestock market here Monday. A few good bulls were 10.50-11.00, choice fed yearlings 15.00-16.00. Veal calves were steady at 16.50 for choice with plains downward to 15.00.

Previous close on live stock: cattle 14.00, calves 14.00, hogs 10.00, sheep 12.00.
